SECTION 15: WEATHER CANCELLATION POLICY

- Since we rent our fields from the Milwaukee Park System, they determine whether we can play. They typically let me know if there's any cancellations no later 5:00pm on game day. If we're cancelled, I'll immediately email the captains and post a cancellation notice on our Facebook page. If you don't hear from me, you can assume games are ON.
- Please keep in mind, if rain doesn't start until 5pm it's a little tricky to determine if games are going to be called, but I'll do my best to get answers for you as quickly as possible so as not to inconvenience anyone.

- Also, please keep in mind we're at the mercy of their grounds crew, so if it rains heavily the previous night there's a chance they may not get the fields playable for us the following day. I've done my best to express the importance of having this done for us, but since I don't sign their paychecks it's still a crapshoot.
- **Mid Game Rain** – If bad weather starts rolling in AFTER games have started, I will immediately post the cancellation on our Facebook page.
 - If a storm rolls in while games are going on but the radar shows it'll be quick, we typically do a 15 minute rain delay and play on!
 - If we can't play on, the following procedures will be followed:
 - If we've completed 4-1/2 innings, the game will be 'complete' provided the home team is ahead.
 - If less than 4-1/2 innings have been complete, the game is not a complete game and will be made up. The batter will start with the count he had when the game was called. The game will continue with the time left when the game was called
